

Government / Economics

Debra Vick

The LIFEPAAC Government & Economics Set is a biblically integrated course presented in an engaging, student-directed worktext format. Your student will study lessons which focus on the history of international and United States government, the American party system, and a study of economics, business, and free enterprise

This class will be very engaging with much discussion on various topics. Projects will be required throughout the year as well as a few papers. It will be a fun class based on full interaction and discussion.
