

## High School Chemistry

High School Basic Chemistry Course including labs, using Apologia's Exploring Creation with Chemistry, 2nd ed by J Wile. Class will review students' reading assignments and conduct labs. Students are responsible for all reading, ON YOUR OWN questions, Study Guide questions, and tests outside of class. Parents are responsible for correcting their student's Study Guide, labs and administering and correcting tests. (Instructors will correct students tests for an additional fee if arranged individually.)

Required: Exploring Creation with Chemistry, 2nd ed. , by Jay Wile, answer and test booklets; \$40 lab and copy fees.

Instructors: Alison Freeman, Laura Passner
